

One Call Now Emergency System

We have a new emergency call system. If you have turned in your information we have added you to the system. If you would rather receive a text please text "Alert" to 22300. This will set you up to receive text messages. Anyone can sign up for this. This is a very handy system for emergency situations or if we just need to get a message out.

Frequently Asked Questions:

Q: If I am not in the system how can I be added?

A: You can add yourself by following this barcode or web link:

<https://www.mycallnow.com/?G=QgsmaSG4spJJ3WqZ4FrCxA%3d%3d>

Q: Can I receive both a call and a text?

A: You can receive one or the other. You will start out with a call. If you text alert to 22300 you will be opted in for text.

Q: What will this be used for?

A: School closings, sports announcements, and pretty much anything that is important to school activities.

Q: Will I be charged for this?

A: Standard text and talk charges apply from your service provider. But this messaging system is free to the end user.

Q: Will I be removed when I leave the district to attend somewhere else or graduate?

A: We are working on that, I would expect that system to be in place during the spring. You can always opt out.

Q: If I have 2 brothers using our home number will we receive three calls?

A: No, the system is smart enough to recognize the same number entered for different students.

Q: If I am unable to pick up the phone, will it leave a voicemail?

A: Yes

Q: How do I opt out of the system?

A: Text STOP to 22300.
